What do you like best about this course?:

"The Professor responds to students very promptly and efficiently. He is extremely helpful and gives us so so many resources to learn from! He is very on top of upload documents on blackboard as well and does everything he can to help us succeed in the class. I truly love having a professor that actually cares about his students and wants us to do well! Thank you thank you!!!!"

"This course is very analytical and we used a lot of excel. It was interesting to learn about the different methods used for demand forecasting."

"Doing realistic problems "

In what ways, if any, has this course or the instructor encouraged your intellectual growth and progress?:

"This class has helped enrich my analytical and technical skills. We used excel often in the course. "

"Giving us intuitive and mathematical theory to apply to an array of real life problems "

If you were teaching this course, what would you do differently?:

"Nothing! Great course!"

"Make the homework problems fewer problems but more cumulative to give a chance to practice what we had learned in prior classes and apply those concepts to new material"

Other comments or suggestions::

"I just want to say, thank you Professor Garvey for making my first winter class experience a great one! "

"Hands down one of the top 3 classes I've had at Rutgers and in the top 3 best professors I've had so far. Don't change much of the material and keep open book exams with open ended questions, it fosters innovation and application skills "
